Description: The *Amanda* fragrance from Amanda Lepore is designed by world-class perfumer Christophe Laudamiel who aimed to capture the icon's soft elegance, glamour and formidable strength with a fragrance that is larger than life.

*Amanda* imparts a warm orris amber tone enhanced by soft, beautiful floral extracts like Tuberose absolute, Orris butter, Violet, and Orange flowers. The achieved smooth, velvety whiteness reminiscent of Ms. Lepore's white and soft skin combines with elegant citrus inspired by an Italian Renaissance elixir to give the fragrance a golden shimmer reinforced with a real dash of Cristal® champagne. For quirkiness, there are hints of cucumber and strawberry and a stroke of red-lipstick accord.

The *Amanda* coffret is lined with black satin and includes the exquisite bottle decorated with over 1,000 Swarovski® crystals, a blush colored, satin atomizer, and a signed booklet featuring new photographs of Ms. Lepore by acclaimed photographer Nico Iliev.
